

## RAVEN RP71Si Astragal/meeting stile seals

RP71Si

(M)

A smoke and acoustic astragal seal designed for plain or rebated meeting stiles of timber double doors where a centre latch bolt may be required, or where both doors are active. The sealing portion is made from silicon rubber which are effective in the sealing of noise and weather. Two seals are installed onto one door stile, allowing space for a latch between the seals. The legs of the seals can be cut out (checked) to accommodate the latch bolt front plate, thereby providing a continuous seal (minimum door thickness subject to centre latch and dimensions of morticed door bottom seals).

Location Double butt hinged and centre pivot double acting doors.

Min/Max Gap 3mm to 4mm.

Seal Sizes 2250 or 2500mm stock sizes.

Standard Finish Anodised Satin Clear.
