

IMPORTANT NOTICE FOR ANYBODY ENTERING THESE PREMISES

Welcome to Royde & Tucker

We are currently operating site-wide  SAFETY MEASURES  which apply to everybody in and around this facility at all times. This applies to employees, contractors, customers and any other visitors here for any other reason.

Please do not come in if you are feeling unwell or displaying symptoms of a fever. Customers/Visitors must enter by the Main Reception and their temperature will be taken. If you register above 38°C you will be refused entry.

Signs with instructions and floor markings are provided for your safety throughout the site. Following these instructions is NOT optional.

Repeat offenders may be requested to leave site immediately:

- for employees this can involve being suspended for up to 3 days followed by disciplinary proceedings which may result in summary dismissal for gross misconduct
- for non-employees this may terminate any business you were here to conduct with R&T, with immediate effect

Social distancing rules apply – please ensure you observe them at all times wherever and whenever possible. If it is not possible then always seek maximum separation possible and do not exceed 5 minutes within the 2m separation.

Cover your mouth and nose when you cough or sneeze. Wearing a face mask is recommended and we will provide one on request. But your face mask does not make you immortal and nor will it stop you spreading COVID-19 to others. So you MUST still follow all the other instructions, including social distancing.

Wash or sanitise your hands frequently using the facilities provided.

If you have any queries or concerns then talk to your manager, nominated contact or host.

Stay safe!

Jon Simms
Managing Director
