

Royde & Tucker H650-45 Harmon Hinge

- Solid Brass Harmon Hinge to suit 44mm thick door leaves
- Pivot point within the thickness of the door, hinge body flush with face of door
- Typically installed on door leaves designed to fit into a recess or "pocket" in the wall and finish flush with the wall
- Recommended that are fitted with an additional stop or detent to retain the door in the open position
- Medium duty for internal doors – maximum adjusted weight - 120kg
- Number and location of hinges depends on door construction and aesthetic requirements. As standard 2no hinges for door's up to 2100mm high and 3no up to doors of 2400mm high. Nb. An additional middle hinge assist in keeping the door leaf flat, mitigating bowing. For assistance please contact the sales office.
